Mild A.M. growing colder  
Evening cold. Sun all day.

- New Year's Day -

This A.M. after breakfast I went over to  
Dorchester and worked  
with Joe Churchill till  
9.15 P.M. over his last  
summer's Supervision,  
Solidago & some of his  
Cisterns. It was a big  
job but we enjoy it.  
Mary Cushing was at  
home. Anna is in  
Philadelphia.

There were puzzling  
points to try to settle.  
Some must be settled later.

I got home by 10.30.

It makes a long day.

I have many Xmas  
letters to write but have  
made a beginning.

May I keep well this year.

Clear, cold.  
Real winter.

I have kept in all day writing Xmas letters and seeing callers &c. &c. George called, and later I had a very pleasant call from Mrs. Newbegin's younger son & daughter. They have grown much since I saw them last and they are very pleasant and communicative indeed.

I have spent quite a bit of time to-day over my a/c'ts. We begin soon again on our tax papers - I do wish I didn't have them to attend to. They are very bothersome -  
Heaven's brillian' star-eyes

Clear, bracing, light  
cloud at times.

It has been a glorious  
day. I have been busy  
at Shakespeare work.

This morning I walked  
to Har. Sq. and made a  
deposit. &c. Balanced my  
acct. on my return.

Miss Brown & I have  
hung my evanion and  
we are perfectly satisfied,  
indeed more so.

May Dexter & I with Lois  
L. Howe drove to & for the  
Lanes this evening to Shakes-  
peare Club. Annual  
meeting. Old board in  
elect. I start on my  
40<sup>th</sup> year as Secy. Business  
done, we read Acts 7 & 8  
of Richard II. very good reading.  
Several guests, Mr. Crookes  
among others. Home by 11 P.M.

Clear and cloudy, cold

At home all day  
Worked on the Bede  
records, casting a play  
printing it and getting  
the package off in  
the mail. This took  
all the A.M. Miss  
Brown helped me.

Then I have been  
writing Christmas  
notes and phoning.

I learn that Miss Day  
is at the Cambridge  
Hospital and will  
have a serious ope-  
ration at 8 A.M. to-  
morrow. I pray for  
the best. I had no  
idea she was ill at  
all -

This A.M. I finished  
Underwood's "Wild Brother",  
well told, touching.

Then I went in to  
Y.R.L., and we lunched  
together at "Grafian"  
on Battle St. then I did  
one or two errands and came  
home.

The rest of the time  
except for a very pleasant  
call on Mrs. Cole & Mursey,  
I have been writing  
Christmas notes -

This morning has been  
all day with her brother  
& his family at Mr. Gould's  
who has been sick so long.  
She got back here by 10 P.M.  
and some later they  
phoned her that he  
had passed away -  
Sad, but a blessing -

Sun. very mild

Miss Brown went away  
for the day. Her brother  
left me at the G. W. Hill  
and I met there N. W. Eggle-  
ston, Weatherly, J. F. Collins,  
Wegand, Fernald, Robinson.  
I had a good talk  
with Eggleston whom  
I haven't seen for a  
long time.

Wrote letters this P.M.  
at 6 P.M. Dined with  
Emile & Mrs. Williams  
then met Mr. Eaton, J. R.  
Churchill, B. Robinson  
Drove to Box. Celula  
Eggleston gave us a talk  
on our two *Dicentra*s in  
relation to poisons in  
S. W. Va. Wegand gave a sketch  
of his summer auto tour. Mr.  
Kuersten showed water colors.  
Home by auto. Clear moon.

Clear calm mild - very cold  
streets & sidewalks very slip  
pery.

Busy this A.M. on botanical  
work & Xmas letters -

This P.M. I walked over  
to 26 Lancaster St. & called  
upon Mr. & Mrs. Eddy who are  
settled there for the winter.

I had a very pleasant talk  
with them. They are com-  
fortably settled in 2 large  
rooms on the 2<sup>d</sup> floor with  
good outlook & sun. Then  
I crossed over and called  
on Mr. & Mrs. Matthews &  
sat  $\frac{1}{2}$  hr with them.  
Then walked home to tea.

This evening I took my bag  
by Miss Richardson up to Mary's and  
it was discussed freely by us three.  
The only suggestion is that it may  
look a bit older than I am. It  
is hard to tell. I shall have pictures  
see it. Very clean & cold.

- Evening at home -  
Ther SUN. JAN. 8, 1922 Wea

Clear, cold -

This morning I spent in writing Xmas letters mainly.

At 12:30 Mr. Croase called not having got my letter not to come. He has moved.

I had a pleasant talk for some time before he left & he will come next year.

After a rather hurried dinner Miss Zorum & I went down to her mother's funeral in Centre St. Mr. Balson took us down.

There was a very large gathering there of relatives and those in the 3rd Elevated Dept. Many flowers.

After the regular service there was another service by the Odd Fellows. Then the 3rd Elevated men escorted the body some distance. I drove home.

Mr. S. Thacker called today and told me of 2 evenings Grosbeak - Greenfield

He is certainly better, I understand  
him more, but it is a long way still.  
Leaving him I walked home via Upland  
Road 1/2 hr. fr. his house to mine -

This P.M. I wrote and had a very  
nice call from Alice Weichowicz. She  
is very much on the go now, what with  
parties, etc. She & Ellen Greenough  
have been to Shelburne and had a  
great time on snow-shoes -

This evening I drove down to the  
Harv. Union and heard Count Tol-  
stoy, son of Count Leo Tolstoy talk on the  
conditions in Russia, the rise of the  
Bolsheviki, the peasant class, etc.  
It was most illuminating and instructive.

A fine day, but rough & icy under foot, and dangerous walking as almost no ashes are on the sidewalks. I walked to St. M. to the Trust Co. & Coops. & then on to Gray Hk. where I saw all the men and walked back with 'em.

This P.M. I have been at home, writing and resting. This evening I sat reading "A Traveller in Little Things" by Hudson by the open fire. It is a charming book.

I have had a long phone talk with Mrs. Jordan in Winchester. To-morrow I go over to Gray Hk. in the evening.

 and then to the Peabody <sup>(Academy)</sup> Mus. where  
 I met John Robinson & had a short  
 talk. He is rather feeble. Then Mrs.  
 A. P. Morse took us in church and we  
 went through every room, and had its  
 treasures explained - marvellous -  
 Then we made a brief survey of the  
 Essex Inst. That and the other  
 sights must be done another time  
 5 P.M. to Boston. Geo. was home.  
 I had tea in Copley Sq., went to the  
 Public Library & saw the Indian

Clear, calm, bracing -

Busy in my study, this A.M.

Mr. E. Greenman & F. A. Schrepfer came to dinner 1.15 and stayed till 5 P.M. We had a very pleasant time. Schrepfer told us a great deal about the war, more of the inside life in hospital, field &c than I ever knew before. We were all very much interested. He had a wonderful experience -

After they had gone M. L. F. & I called and we had a good talk. Mrs. L. Cochran will I haven't seen her for long.

After supper I devoted my time to letter writing and have made much progress. I shall get through ere long. Of course I have regular correspondence besides - It is impossible to write the last letter - I never can do that. Fine moon to-night.

Clear, calm, cool -

This AM. I went to see Mr. Little's little blog + discussed points in my 1919 Federal Tax paper. Then I walked to J. R. C.'s. Subod, in AM. I found Miss Broote at Registry of Deeds. She has taken my papers, and is going to the registry of deeds where she will get a correct reply. Then I returned home.

Plu. at home writing.

Evening with Soc. to Unit. Club. Big meeting. 40 or more. J. Prentiss Baldwin talked on Bird Banding. Washington Govt. was present. It is a strong move to stir up bird banding. The talk was very interesting and shows wonderful possibilities. I met Miss Wheeler, Farley + others. Home by 10:45.

Clear, cool.

Has been working today on our local flora. I walked over to the Gray Herk. This morning to settle a few problems, saw a note on the discovery of *Therid-theria procumbens*. *forma rubra* *abundant* for our flora. we have reached the Ericaceae. The event is recorded in my July 20<sup>th</sup> 1895. It is pathetic -

This evening I auto'd down to the town union to the reception of Mrs. & Mrs. Lowell. A death in the family changed the place from the Mrs.'s house. It was a large and very successful affair. I met hundreds of friends, some going back to the old school to say - Among them Chas. Francis, Pres. of the Union. Dr. Ali Porter. They were very cordial. The dancing was the limit. Dr. Porter introduced his wife. I talked with lots of people. I returned & drove him home at 11:45

Clear-cold.

This Thur. I went to the  
C. W. Hall and stayed a while

This Fri. I went, then  
went to 142 Marlboro St  
at a tea by husband's cham-  
bering for Shelburne friends.

Guests Mrs. C. Barbara,  
her 2 sisters & brother  
Miss Paine (2), Prof. Emerton  
Miss Harris, Mr. & Mrs. Abbott,  
very pleasant talk.

Then I went out to Harv.  
I got my tea at a  
restaurant and went over  
to the Harvard Union  
to hear Admiral Sims.

I suppose there were at  
least 600 students pre-  
sent, with great en-  
thusiasm. It was a  
notable occasion.

Sims says submarines  
must be the safety of  
our coast —

Clear, very cold.

I have kept at home both morning & afternoon. I was pretty busy when Mrs. Marks phoned me that Mrs. Marks was suddenly taken ill and they, of course, could not have the next Shakespeare Club on Jan. 31. The kind of illness was not certain yet. I am more than sorry for her & hers. I have got the Bradfords to take the meeting. They are always so ready.

This evening I auto'd in to Charlie Townsend's to the "The Dine". Only 5 of us met: Townsend, Thaxton, Jeffries, Jackson & I. Unusually small number. Spelman, her sickness in Mrs. S's bro.; Balablock, tooth ache, Goodall, wife's illness, poor had Rand at home for how long! I saw Mrs. T. & Frances. Pleasant, quiet time. Auto'd back.

The rest. J.R.C. & I spent  
our time distributing Caries.  
There was present J.R.C.  
W.D., M.L.F., J.W. Nigg, F.W.H.,  
N.J. Hedder, B.L.R., S.W. Sanford.

We broke up about 10 Pm.

I went to my car &  
went in W. Goodspeed's truck  
Am. and changed by Audubon State  
from Lut. May for Life & Letters of  
Wm. Higginson (B. Perry) "Americanization"  
of 500 Boks, & 9/8 Union Comers, in part.

Cloudy, very light snow at intervals. Mild

This A.M. I walked to Gr. Pl. and settled some bot. problems. Walked home later I took the Cornus canadensis to the apothecaries (Huron Ave.) and sent it back to Dr. Otley, Wellesley, Mass.

This P.M. I read in "Winter Comes" for some time it is fascinating -

Orin Crosser came up in the P.M. and took dinner with us and I showed him my Herbarium and told him how I collected, pressed & mounted plants. It was a hurried exposition. I like to help anybody in this way, who is really ready and anxious to learn. Crosser goes tonight west.

Prof. Marks. Mrs. M. somewhat  
conscientious. Case of auto-intoxication  
apparent. He's some encouraged.

Very very hard. 5 days work.

I hear Richard Gustis has  
bought the house next to us.

Mrs. & Mrs. Eddy came to dinner  
(1 P.M.) & stayed till 4.15.

We had a real good social  
time. We showed them  
over the house, and they were  
interested in the old relics.

The herbarium interested  
them very much. I had  
selected representative sheets  
to save time. It was very very  
pleasant. It had been a work of  
over 41 years.

I have read a good deal  
of it in "If Winter Comes":  
It is a fine written story.

Clear, calm, mild.  
Another wonderful day.

At home most of A.M.

This Am. I went in to the hearing at the State House on the preservation of the Mayflower in address by Mr. Burrage, short remarks by Fernald, Kidder & very freeful indeed.

Then went to Bigelow's Broomfield St. Spd. for the framing of my photos.

P.M. at home reading. This evening George asked me to go in with him to see something in town. We drifted into the Ives and Peap, and saw Mark Twain's ~~Connected~~ Yankee in a movie - It was very good and amusing. But a question of crowd flocking to these things.

This evening Mrs Brown & I with George went in to Huntington Hall to hear Prof. Wheeler give his first lecture in anatomy. The hall was well filled, but our seats 5 2/3 back did not allow us to get his words at all well. It is a shame that a public lecture should not be able to fill such a hall. I got snatches heard there. Glad to get home.

This Fact Is Pointed Out at Annual  
Meeting

Fred Norris Robinson Is Elected  
Head

The annual meeting of the Colonial Society of Massachusetts was held last evening at the Algonquin Club, and was largely attended. Dr. Fred N. Robinson, the president, was in the chair. The treasurer, William C. Endicott, presented the annual report, showing that the endowment of the society amounts to \$117,000. The annual report of the council was presented by Rev. Charles E. Park, and extracts follow:

"The society is reminded that the cost of publishing a single volume is at present about \$1000. Our annual income from all sources is a trifle over \$1000. Deducting salaries and incidental expenses, including the annual dinner, about \$5500 a year is left for publication expenses. It is manifestly impossible to publish at the rate of two or more volumes a year on an income that warrants only one and a quarter volumes a year. As in many other enterprises our usefulness is limited by our resources. Members can help by transmuting their annual dues to the life membership basis. To do this adds \$100 to the society's endowment and frees the member from all further dues.

### Saddened by Founder's Death

"The year has been saddened by the death of the founder, who was also our treasurer, and our never-falling source of energy and enthusiasm—Henry Herbert Edes. At their last meeting your council adopted the following minute:

The passing of HENRY HERBERT EDES, which occurred on the 13th of October, brought sorrow to the heart of every member of the council. Founder of the society, its treasurer from the beginning, sole survivor but one of the original council, seldom absent from a meeting, he brought to our deliberations a deep knowledge of the needs of such a society, an experience of thirty years, and a profound and touching interest in the fortunes of the society, over which he watched as a parent his child. No detail was too trivial, no labor however irksome, was shirked, in an endeavor to forward the welfare of the society. To him, in collaboration with the late John Wilson, is due the beautiful format of the society's publications. His earnestness, sincerity and boundless enthusiasm were infectious, and doubtless were responsible for the success his appeals rarely failed to meet with. Beneath his dominant personality was a tenderness perhaps unsuspected by the stranger or casual acquaintance, but well known to his intimates, to whom he never tired of showing kindnesses. His cordial welcome at our meetings, his emphatic expressions of opinion, his vigorous and outspoken comments on men and things, his inexhaustible fund of amusing and entertaining anecdotes of noted Boston worthies, his reluctant farewell—these will dwell always in our memories.

### New Members Elected

"Election to membership during the year have been as follows: Resident members: Wilbur Cortez Abbott, George Pomeroy Anderson, Walter Austin, Francis Tiffany Bowles, Homer Gage; corresponding members: James Benjamin Wilbur, John Pierpont Morgan; honorary members: John Singer Sargent.

"Losses by death during the year have been as follows:

"Lincoln Newton Kinnicutt—Loyal, gentle, unassuming, true-hearted, a man of great chivalry of soul; a champion of the weak, a lover of children and animals; a man who could be loved instinctively and admired without effort.

"Williston Walker—Provost of Yale University and professor of church history. Of the highest scholarly attainments and a recognized authority in his chosen field, he was yet without any trace of intellectual arrogance. His friendship and help were always available. In his absorption in history, he never lost sight of the purpose of historical knowledge, the guidance and enrichment of human life in the years to come.

"Richard Middlecott Saltonstall—In him the nobler traits of a distinguished ancestry found their full embodiment. A man of great sagacity and breadth of interest, his skill in practical affairs was enlivened by a capacity for harboring noble visions and dreaming great dreams; and his worldly interests were brightened by singularly clean pleasures and profitable hobbies. His work was play to him, and his play always had ever its more serious, more useful side.

"Edward Mussey Hartwell—Secretary of the statistics department of the city of Boston. The mention of this office gives no indication whatever of the value of his services to city and nation. He was teacher, physician, statistician, investigator and writer. It was his aim in life to better the conditions of those who needed help; children and the laboring class, invalids and the blind. His kindness was genuine; he was modest without affectation; he was manly and therefore lovable; he endeared himself greatly to those who knew him, for his friendship was life-long and was a constant source of helpfulness and cheer.

"Henry Herbert Edes—Founder of this Colonial Society and from the first its treasurer. His best tribute is written within the hearts of his associates, and his constant devotion and untiring enthusiasm have their most eloquent memorial in this society which owes to him its existence and prosperity. We contemplate his death with emotions of grief mingled with a sort of terror, for the efficiency with which he prosecuted his many purposes makes his loss well-nigh irreparable."

Samuel Williston presented the report of the nominating committee, as follows, and the members therein named were unanimously elected: /

### Robinson Is Elected President

President, Fred Norris Robinson; vice presidents, Arthur Prentice Rugg and George Foot Moore; recording secretary, Henry Winchester Cunningham; corresponding secretary, Charles Edwards Park; treasurer, William Crowninshield Endicott; registrar, Alfred Johnson; member of the council for three years, Francis Russell Hart.

After the meeting, dinner was served to the members and their guests. President Robinson began his remarks by paying tribute to the late Henry H. Edes. Speeches were made by Right Rev. Charles Lewis Slattery, Dean Roscoe Pound, Morris Gray, Admiral Francis Tiffany Bowles, George Parker Winship and Professor George Lyman Kittredge.

## ACTIVE IN BELMONT CHARITABLE WORK

---

The funeral of Mrs. Ida Cushing Underwood, wife of Prof. William Lyman Underwood, lecturer and naturalist, will be held tomorrow afternoon at 3 o'clock at her home, 50 Common street, Belmont. She died of heart disease Sunday while wrapping Christmas presents for her relatives and friends.

She was born 62 years ago, the daughter of Hayward Peirce Cushing, and graduated from Vassar College in 1883. She was married to Mr. Underwood four years later. She always accompanied her husband, who is a professor at Technology, on his lecture trips, and in his writings and talks he invariably referred to her as "comrade." Mrs. Underwood organized the Unity Club in Belmont and had been active in charitable work there.

Besides her husband, she is survived by a son, W. J. Underwood, a grandson, William James Underwood, a sister, Florence M. Cushing, a trustee of Vassar, and a brother, Dr. Hayward W. Cushing, a Back Bay physician.

Prof. Underwood has been a lecturer in the biological department at Technology for 22 years. He has lectured and written for more than 20 years on bacteriology as applied to canning and preserving industries, on wild life in field and forest, on the gypsy and brown tail moth problems and on mosquitoes and their extermination. He has been chairman of the Belmont board of health since 1902.

## MRS. IDA CUSHING UNDERWOOD

She Was Wife of Professor Underwood  
of Technology and a Graduate of  
Vassar College in Class of '83

Ida Cushing Underwood, wife of William  
Lyman Underwood, lecturer and naturalist,  
who has died at their home, 50 Common  
street, Belmont, was sixty-two years old.  
She leaves besides her husband one son,  
William J. Underwood, associated with the  
William Underwood Company, and one  
grandson, William Julian Underwood.

Mrs. Underwood was graduated from  
Vassar College in 1883 and married Mr.  
Underwood in 1887. At the time he was  
associated with the William Underwood  
Company in the canning industries and  
found baffling scientific problems. Mrs. Un-  
derwood, through natural capabilities and  
training was of a scientific turn of mind  
and took an active part with her husband  
in solving these problems when he became  
associated with the Massachusetts Insti-  
tute of Technology. They were both in-  
tensely interested in natural history and  
wild life in the field and forest and together  
they made frequent trips into the wilds of  
Maine and Canada, Wyoming, California  
and Florida.

She was his assistant in all his success-  
ful endeavors. Together they had written  
extensively on natural subjects. He is a  
well-known lecturer on these subjects.

Throughout his lectures and books there appear many pictures of Mrs. Underwood assisting him and he always speaks of her to them as "Comrade."

Mrs. Underwood was the founder of the Unity Club in connection with the First Congregational Church of Belmont (Unit-

arian) and was always active in charities. Her father was Hayward Peirce Cushing, a member of the firm of Silas Peirce & Co., and a member of an old Boston family.

sermon. Walked back with  
Prof. Wambaugh to Haw-ly. &  
then to Dr. Goodale. Found  
both & Mr. Abbott. Dr. G. is far  
from strong. He can't walk up stairs.

This afternoon worked in  
Herb. Geo. came & made a long  
call. Geo. Rose & his friend Mr.  
Johnston who is at Gray Herb,  
called and we had a good  
long talk. Geo. is an earnest

Cloudy all day, gentle rain  
with some heavy showers.

At home to-day, feeling  
quite well —

Busy about various bits  
of work, writing letters,  
duplicates for K. H. Bailey  
etc.

May Dexter called this  
A.M. Dr. Rushmore  
called this P.M. I was  
very glad to see him.

He talks about his new  
position as Dean of Tufts Med.  
School. Later this  
evening Prof. Emerson  
called and we had  
a good talk over Shel-  
burne and the European  
troubles.

Good phone talk with  
Miss Florence Paucot. She  
has brought me cards from  
Paris. I am much interested  
to see what they are

Rain all day-

I went over to the Gray  
Pier. Both morning &  
afternoon - and walked  
his own local flora cards,  
in the Gray etc. I have  
sent 15 Compositae in the  
Delulu Herb. I have made  
much progress to-day and  
hope tomorrow to get to the  
Compositae in the Gray.

I saw Johnston there.  
He is very happy - I also  
met Van who went  
with Bob Robinson to New York  
some number of years ago.

I sent a package of  
plants this morning with  
Bailey and me to Weatherly.

My cold was almost gone  
and I am thankful.

Talked with Hamilton this

Clear, cool, perfect day.

This morning I spent four hours at Gray Herb. on local flora cards. I am in Solidago in Gray Herb. and W. Lester in Club Herb. Walked back with B. R. Robinson.

This afternoon spent party over Charlie Batchelder's graves. The Pantheon is not easy - The keys do not at all ways work.

This evening we went to Huntington Hall met Anna Church. I got 4 or 5 tickets, and heard the lecture by Dr. Shapley on The Content and Structure of the General Universe. And seats are rather far back - The talk was very interesting and instructive. He showed what the great problems now are engaging the astronomical world - Home by 9.40.

Clear, mild another  
good day -  
I have been at home  
to-day except for a call at  
Emile Williams, out, and  
a call on Mrs. L. S. Marks.  
I saw her for some 10 min.  
She is far from well and  
the trouble is very obscure.  
She was respectable & she has  
suffered much - I pity her  
I have finished Charlie  
Gatchel's plates -

I have also selected,  
cast and printed & mailed  
the first Shakespeare  
notices for Nov. 7, here.  
I can get copying ink  
through the Co's Soc.  
It has worked well and  
I am much relieved.

B. K. Robinson called this  
evening with a bit of local  
H. proof. I had a pleas-

This evening we went over  
to the Harv. Obs.<sup>1</sup> and saw the  
moon through big telescope,  
and star clusters through a telescope  
in another room, heard a lady  
talk with views of Argyreus &  
the Harv. astronomical plant.  
We heard Prof. Shapley talk &  
answer questions a number,  
which I asked on various points.  
Glass slides illuminated all round  
Anne Churchill was there. Home by 9.30

Clear, cool, perfect

This morning & afternoon  
I arranged my Shelburne  
plants in order for the  
herbarium and made  
notes on some for Pease.

I went to the Chapel  
and heard a very fine  
sermon by Rev. W. K. Sperry  
and also very fine singing  
by the choir - Walked  
back with E. Emerton to  
the Observatory where I left  
a note for Prof. Shapley  
who was not in - I had  
stopped a minute at the  
Allen on the way home.

This P.M. calls from Van

 "Origin of the Earth" He is  
 master of his subject and  
 he holds his crowded audi-  
 ence closely, talking ven-  
 turely off-hand without  
 notes. The views on the  
 screen and very fine &  
 illustrate well his points.  
 Many questions were asked  
 after the lecture and it was  
 interesting to hear him an-  
 swer immediately these varied  
 queries of all kinds. There  
 is one more lecture, Nov. 17.

Cloudy, rain at 5 P.M.  
 Typing in early evening.  
 At 10 P.M. sky brilliant -  
 I again spent the  
 day at Herb. leaving lunch  
 with Weatherly & Fernald at

 of work. made a lot of cards.  
 This evening I went in to  
 Huntington Hall and heard  
 Fernald on "The Eastern  
 Shickeloch lute of Gaspé".  
 It was a very successful talk  
 and the views were fine.  
 I think Fernald never did  
 it better. I sat with  
 Weatherly and J. R. Churchill.  
 On my return some  
 about the heavens bril-

Harvard 10 - Yale 3.

Harv. at last has a game -

Then called on Mrs. Edds, but could not get an answer. I don't like the Rooker.

Then called on Mr. & Mrs. Bradford, first calling by mistake on Mr. Bro's sister with whom I had upon talk.

At home this evening busy as usual over a little of every thing.

Clear cold, calm

This Am. after some work at home I walked by Appleton Chapel & heard Bishop Lawrence preach a good sermon on Duty.

Mrs. & Milton Greenman came to dinner and we had a very pleasant time, and afterward we sat in the parlor & talked.

Later we three walked down to the Widener Hall to see the Sargent paintings in the hall in either side representing a memorial to the Harvard boys who went over & met their death.

The paintings are very fine of course and we looked at them long. I walked home this evening I have been making my list of gifts given & rec'd last Christmas. Quite a job.

Cloudy most of day. Some sun  
Chilly. Wet snow this evening.

This A.M. walked over  
to Gray & Co. and looked up  
Gerardia tangle (Pennell &  
Blake). Walked back with  
B.F.R.

This P.M. I was busy in  
my Herk. my plants from  
J.R.C. are all here now.  
Over 400 sheets. I think  
I have listed them -

This evening I went to  
C.F.B.'s by electric, to a  
Council of the N.O.C.

Geo. W. Field's name was  
brought up & passed for further  
discussion. A paper by  
Barbour on "Birds of Cuba"  
He has been yeady on the  
work and the Club were  
very favourably impressed  
& voted to publish it,  
with Barbour's help. He will  
pay for illustrations, & half the text, <sup>some</sup> 6000.

the C. W. H. and made good  
progress - Home business

This P.M. this 3.09 went  
over Xmas lists and then  
I lay down pretty tired  
Slept like a log for 2  
hrs!! most unusual

This evening Geo. took me  
in to the Selwyn base  
"Down to the Sea in Sheep's"  
a splendid story of whal-  
ing. The scenes were  
most remarkable, in-  
cluding the incidents  
in the life of the whale.  
It included the catching  
of the whale which you  
saw in the ocean, the  
many attendant events  
in connection with the  
life of the men. Remark-  
able throughout -

Clear calm cool.

This A.M. I walked  
to from Harr. Square  
to Trust Co, Corp. vs  
Bought a soft hat.

Kawolton came about  
2:45 P.M. We buckled  
down to the local flora  
and did a good bit of work  
though I hoped for more  
We went from ~~Convolvulaceae~~  
over 1/2 through Labratae.  
Kawolton hopes to get  
through in one year.

I have got my Xmas  
lists all ready for ac-  
tion. Mrs. Bodin has  
helped much.

The hard thing to know  
is what all the family  
wants when they really  
want nothing.

I wish cards could be  
sent to each other.  
It would be just as much fun.

about 1/2 hr. by Rev. Prof. Fenn.  
Very impressive - 80 or so pre-  
sent. Walked home -

Bot. work, Elliot Spal-  
ding called, real good talk.

Dined with Lucy & May.

George & Linnie Walcott there  
Very excellent dinner.

Large turkey in spite of prices.

Mary came over after dinner  
at 3.45 I went over to the

Spalding's to see them all,  
Mr. Mrs. S. Elliot & wife,  
Roger, wife & 2 children.

Mr. S's niece, & Mr & Mrs. S.

All were very bright & I had  
such a welcome -

Evening at home, rather tired

Read & wrote a long letter  
to W. I. Putnam.

Busy at home this morning - After lunch I joined Miss B. in Boston and we went to Park Theatre and saw "When Knighthood was in Flower". The scenes were in Henry VIII<sup>th</sup>'s time, and Henry VII & Louis XII figured in scenes in England & Paris. Mary Tudor, sister of Henry VIII was the center. The play well staged and I should like to read the story.

The performance was about 3 $\frac{3}{4}$  hrs long - We got home by about 6 P.M.

on Xmas cards mainly.

This P.M. I went in to  
Alice Netherbee's reception  
at her aunt's Mrs. B. Preston  
Clark 171 Marlboro St.

Got there at 4.30. It was  
a lovely reception. Alice  
looked very pretty in her  
pink costume. I talked  
with her 2 or 3 times.

I saw her father & Bow,  
and Elroy, his wife & boy,  
& Ralph Williams & wife.  
I hadn't seen Ralph since  
he left J.P.A.'s school -  
Saw also Rev. Mr. & Mrs. Wash-

We all had a very good

This evening passed  
quietly & busily.

The main thing now  
is to keep well. There  
is much sickness here  
there, and many acci-  
dents, and awful crimes  
committed for mere a  
few dollars gain that  
I feel fortunate every  
night that I am safe.

socially and then we sat  
by the fire in the parlor  
and they did not go till

Then George called and  
sat till 6:15.

After supper I did  
some writing and  
journaling. The hours  
slip by. I have written

It set me up finely - I called on Lucy for  $\frac{1}{2}$  hr. and after dinner went down to Batchelders to a Council meeting of the N.O.C. The regular meeting followed and we had a display of birds from Panama with descriptions of the habits &c. by T. came up to dinner. We had  
a very pleasant evening,

stories - They all stay  
in Cambridge during  
the Xmas holidays.  
Mrs. McKoven is in Europe

It was quite painful.  
Then to Y.R. in town  
We lunched together  
at the Georgian Cafeteria  
and had a good talk.

Then I returned home

This evening I walked down  
to the Rutland Theatricals.  
I had never been at this  
season. A few fellows  
some 10 or 12 gathered there  
and played at the piano  
and at about 9:30  
6 or 7 boys on the stage ran  
through a brief silly performance  
I talked with 2 or 3 boys who  
were polite. Home by 9:45!!!

Beyond a little rain.

This A.M. I went to Boston. Called at P.H.'s for a few minutes.

### NOVEL WAR MEMORIAL

**Mr. Mathews's Illumination on Vellum  
for Town Hall of Campton, N. H., on  
View at Robinson Hall**

An unusual war memorial, in the form of an elaborate illumination in watercolors upon parchment, a triptych, set within a structural frame of carved wood gold-bronzed, is now on exhibition in Robinson Hall, Harvard University. It is the work of F. Schuyler Mathews, who is connected nominally with the university as botanical artist for the Gray Herbarium, and, aside from the authorship of botanical and ornithological books, Mr. Mathews is not so well known as an artist, who was a devoted pupil of Walter Crane, the English artist and designer. The war memorial in question will remain in Robinson Hall for about a week longer, when it will be shipped to Campton, N. H., where it will be hung in the town hall.

Campton, in the southern White Mountain region, is the place where Mr. Mathews has his summer residence and studio. It was famous in former days as a resort of New York and Boston landscape painters. It commands most beautiful views of the Franconia range. It sent to the war service twenty-eight of its sons and one daughter (as a nurse). Last summer the selectmen of the town asked Mr. Mathews to design a suitable memorial in recognition of the war services of its youth, and the illumination is the result. The ornamentation is exclusively drawn from stained glass designs from windows in Rheims and Solissons cathedrals, the glass of which is now destroyed.

MEMORANDA

RUDOLPH BLASCHKA, WHO MODELED THE FLOWERS, AT WORK ON A NEW COLLECTION

Rudolph Blaschka, the artist who, with his father, modeled the famous "glass flowers" in the Botanical Museum at Harvard University, has begun work on a supplementary collection of glass models of grasses and sedges, which will be displayed on their completion in a room adjoining the Ware collection of glass flowers.

Funds for the first half-year have already gone forward to the artist, and Walter Deane, '70, formerly president of the New England Botanical Club, has consented to aid in providing him with American material for the construction of the new models.

The Ware collection now on exhibition will be practically complete when twenty models and fifty magnified anatomical details, now in the artist's studio in Germany, have been transported to this country. Under existing conditions it is unsafe to transport them, especially as their removal "in bond" to Boston cannot yet be secured. Up to the time of the war, the glass flowers were shipped direct to Boston and then by the courtesy of the Custom House officials were carried directly to the museum in Cambridge and were unpacked safely at the university.

The collection now illustrates 160 families of flowering plants, 540 genera, and 803 species, and there are more than 3200 analytical magnified details. The range of the exhibition is sufficiently extensive to give a clear idea of the relations of these important families and species to each other. The inimitable skill which has copied in glass every minute detail of structure of the plants, has been wholly devoted to Harvard University. All of the specimens which have been made since 1895 are the artistic handiwork of Rudolph Blaschka, who has carried on all of his study and his modelling single-handed in his studio in Germany.

Native Bostonian and Daughter of Old-Time Merchant, She Had Lived in Cambridge for Twenty-Seven Years and Was a Life-Long Member of Arlington Street Church

Miss Jane E. C. Chapman, who died in Cambridge on Wednesday, after a brief illness, in her eighty-third year, was a native of Boston. She was the daughter of the late Dummer Rogers Chapman, an old-time Boston merchant, and her grandfather was Jonathan Chapman, a prominent citizen of his time. Miss Chapman's mother, Jane Eliza Chapman, was before her marriage a Miss Coolidge. For a long period of her life Miss Chapman lived in Boston, but the past twenty-seven years had been spent in Cambridge, where she and her sister, Miss Emily D. Chapman, who is the only immediate relative left, made their home at 34 Buckingham street. Miss Chapman was a Unitarian—a life-long member of the Arlington Street Church. She had always been deeply interested in philanthropic activities.

**JUDGE JENNEY IN HOSPITAL**

Justice of the Supreme Court is a Patient at Peter Bent Brigham, and a Consultation Will Determine If an Operation Is Necessary

Judge Charles F. Jenney of the Massachusetts Supreme Court, whose home is in Hyde Park, is a patient at the Peter Bent Brigham Hospital, where he was taken Monday. He has been under observation by the physicians who will determine soon whether an operation is necessary. He was taken ill ten days ago and was confined to his room until taken to the hospital. There have been symptoms of inflammation of the gall bladder.

Judge Jenney is a native of Middleboro and is sixty-two years of age. He was graduated from Boston University in the class of '83. He has practised in both Hyde Park and Boston, has been a member of the House and of the Senate and was made associate justice of the Superior Court in 1909, and appointed to the Supreme bench in 1919.

## N. E. NATURALISTS CONVENE

### Federation Opens Annual Meeting at Children's Museum, Cambridge—Exhibit Tonight and Tomorrow

Delegates from a dozen branches of the New England Federation of Natural History societies gathered in Cambridge today for the opening day of the annual exhibition and business meeting of the organization, to be held this year in the Museum for Children, Jarvis street. Inspection of various exhibits was scheduled for this afternoon, when tea was served between four and five o'clock. A social program has been arranged for this evening, when Walter Deane of the New England Botanical Club, and L. B. Fletcher of Brookline will deliver informal lectures, and the public will be welcomed.

The business session of the federation will open at ten o'clock tomorrow morning. John Ritchie, president, and J. H. Emerton, secretary, will be in charge. The exhibition will close tomorrow evening. Principal exhibits this year will include numerous specimens of plants developed from seeds gathered in wool-waste by Miss Emily Fletcher of Westford; seedlings in various stages of development arranged by Walter Deane; and a large collection of drawings of mushrooms, and spore-prints made under the supervision of Mrs. E. B. Blackford of the Boston Mycological Club. J. H. Emerton will display his collection of New England spiders, including actual specimens and numerous drawings and charts; and Emile Williams of the New England Botanical Club will show a collection of photographs of trees of the Pacific coast.

Annual Spring Exhibition, Under Canvas in the  
Ernest B. Dane Garden, Is Producing  
Keen Rivalry Among Large Estates —

COLOR, fragrance and beauty were placed on public exhibition today under canvas in the gorgeous flower garden on the Ernest B. Dane estate at Chestnut Hill, and the public went there to see the combination. It was the annual spring flower show of the Chestnut Hill Garden Society, assembled in the Dane garden, brilliant in colors and imposing in its splendor. It is one of the leading flower events of the year in the vicinity of Boston, and somewhat of a community affair. Today it is open to the public until six o'clock, and tomorrow it will be open again from ten o'clock in the morning until six o'clock in the afternoon, and visitors are advised to enter by way of Woodland road, which leads off from Heath street, at Chestnut Hill.

That these plants, many of which are extremely sensitive, may not be burned by the bright sun, canvas has been thrown over the entire flower garden, to enclose them. There are two tents, one housing the orchids, which have been arranged in the sunken garden, by the fountain, and the other enclosing the general flower collection. Powerful electric lights have been installed in the tents, and they were tried out last evening, when a private view of the show was given.

abundance that they dominate the exhibition of several groups of flowers in the larger tent, but they are pleasingly modified by the delicate hues wrought into the wealth of bloom and foliage. Large urns and bird baths along the edges of the flower banks are used to advantage.

In the large tent there are six exhibits. Mrs. Ernest B. Dane has a mound of flowers just inside the tent opening, built up with choice collections from the greenhouses—spireas, campanulas or bell flowers, godetias, hydrangeas, antirrhinum, fuchsias calceolarias, lilies, daisies and numerous other kinds of spring flowers. Back of this is another large display contributed by the C. G. Weld estate. There are in this collection some of the varieties that are shown by Mrs. Dane but the prominent clusters seem to be the calceolarias, the handsome blue lobellias, gloxinias, some rare geraniums, the blushing bride, balsam azalea, the Weld hybrid snapdragons, and godetias.

Across at the other end of the tent there is a wide bank predominating in marguerites and standard heliotropes, with rare orchids, pelargoniums, and spireas for a blending of colors. Directly in front is a circular fountain overspread with roses and gypsophilas which most people know as baby's breath. This has been contributed by Mrs. Richard M. Saltonstall. Between this and the Dane section there is a square filled high in air by Edwin S. Webster.

Surrounded by tall hydrangeas, principally of the blue variety, this centrepiece rises to a summit of spreading ferns under whose leaves are deep red flowers. Pots of flowers, at the four corners of the square are of lighter colors. Andrew Adie has a special exhibit of standard fuchsias and hanging baskets of fuchsias at one side of the tent, and on the opposite side A. T. Bradley is showing a rare collection of marguerites and begonias, with some lilies.

Orchids constitute the principal entries in the other tent, located across the walk, and the principal exhibitors are E. B. Dane and E. S. Webster.

These estates which have made entries for the flower show are competing for honors, and they are finding real competition from some of the smaller gardens in the Chestnut Hill Garden Society. A bronze medal is offered by the Garden Club for the most meritorious exhibit; the Massachusetts Horticultural Society has offered a medal for the best arranged group of growing plants; the best table decoration will be rewarded, and there is a special prize for the most artistic single vase of cut flowers. In addition, awards have been offered for the best exhibit of cut flowers, the best corsage bouquet, the best Japanese arrangement, the best exhibit of native wild flowers and the best exhibit of orchids.

Mr. Dane was awarded first prize for the best group of orchids, his winning dis-

play having been grown by Donald McKenzie, gardener at Roughwood. Second prize went to the group shown by Edwin S. Webster. An award for the best wild garden, which included pink lady slippers gathered in the woods of Chestnut Hill, went to Robert Duncan. Mrs. F. S. Mead won a prize for the best Japanese arrangement of flowers, with second prize in this class going to Mrs. Edwin S. Webster.

In the class for table centrepieces the first prize was given to Mrs. William Ellery, with Mrs. Webster second and Mrs. C. S. Houghton third. A blue ribbon for the best display of flowering plants went to Edwin S. Webster, whose exhibit included godetias, clarkias, calceolarias, antirrhinum, azaleas, pamelias, campanulas and fuchsias. In this class second prize was given to Mrs. C. G. Weld and third prize to Mrs. Richard M. Saltonstall. Honorable mention was awarded to Mr. Dane and Arthur T. Bradley. Honorable mention for a display of calceolarias went to Mrs. Andrew Adie who also received honorable mention for her collection of fuchsias.

A vase of cut flowers shown by Mrs. Webster received a prize and Mrs. Saltonstall's exhibit of potted strawberries was given honorable mention. One of the interesting features of the exhibit was a display of rhubarb, cucumbers, lettuce and asparagus grown at Roughwood, and this was given honorable mention.

Once in a while the east wind takes a hand in local affairs just when its services are most needed and today is one of the occasions. It brought in from the ocean a wave of cool air that hit the hot wave right between the eyes and put it down for the count. So effectively was its work done that from a maximum of 92 yesterday, the mercury slid down to a minimum of 60 this morning at five o'clock, or a drop of thirty-two degrees in fourteen hours. The difference was so great that this morning felt really chilly.

Whether the relief is more than temporary is doubtful. The forecast calls for local showers tonight and Sunday, but after that there is every prospect of a return to higher temperature readings, for in Chicago at seven o'clock this morning (Eastern standard time) the temperature was 76. That was fully as hot as at any time during the hot spell of this week, which struck the Middle West before it arrived here.

EDES—At Cambridge, at his house, 62 Buckingham street, on Friday, Oct. 13, Henry Herbert Edes, son of the late Henry Augustus and Sarah Louisa Edes of Charlestown, aged 73 years. The funeral will be held at the First Church in Boston on Monday, Oct. 16, at 12 o'clock.

**HENRY H. EDES DEAD**

**He Was Native of Charlestown, Had Done Much Historical Research, Was Member of Many Organizations and Had Been Honored by Harvard**

Henry Herbert Edes, long identified with many organizations both historic and otherwise, died this morning at his home 62 Buckingham street, Cambridge, following an illness of a few weeks. Mr. Edes was in his seventy-third year, and for a long time he had been manager of the Conveyancers Title Insurance Company with offices at 30 State street, having begun his association with this concern back in February, 1889.

Mr. Edes was born in Charlestown March 29, 1849, and he was the son of Henry Augustus and Sarah Louise (Lincoln) Edes. He was educated in the Charlestown schools, and was made an honorary member of the Harvard Chapter of the Phi Beta Kappa in 1898, in 1906 received an A. M. degree from Harvard, and he had been a member of the visiting committee in history at the college since 1907.

Date.

He was a Fellow of the American Academy of Arts and Sciences, for which he had been at various times treasurer and member of the Council; member of the Colonial Society of Massachusetts, on which he also had been treasurer, and a member of the Council; American Antiquarian Society, American Historical Association, the historical societies of Massachusetts, Maine, Rhode Island and Wisconsin, the Essex Institute, New England Historic-Genealogical Society, Cambridge Historical Society, of which he had been treasurer; Unitarian Historical Society, of which he had been president; the Bunker Hill Monument Association, and had at one time been its vice president. Under municipal contract Mr. Edes had arranged and bound the manuscript records and archives of Charlestown from 1630 to 1847, which comprise more than one hundred volumes.

On matters of historical research Mr. Edes had made many valuable contributions. He was the author of "Memorial of Josiah Barker," published in 1871; "History of the Harvard Church in Charlestown," issued in 1879; "Historical Sketch of Charlestown," which is incorporated in a "Memorial History of Boston"; "John Davis of York and His Thanksgiving Proclamation of 1681"; "The Places of Worship of the Sandemanians in Boston," "Documents Concerning the Early History of Yale University," "John Winthrop, the First Recipient from Harvard College of the Degree of Doctor of Laws," "Memoir of Robert Charles Winthrop, Jr.," and other volumes. He was also the author of many historical and general pamphlets, and was the editor of "Wyman's Genealogies and Estates of Charlestown," in two volumes, and Volume II. of "Foote's Annals of King's Chapel, Boston." He also had been the editor-in-chief of the Harvard Quinquennial catalogue since 1916. Mr. Edes was always intensely interested in the activities of the First Church and had served on many of its committees.

Mr. Edes in December, 1896, married Grace Williamson, daughter of William Cross Williamson of Boston, and she is his only immediate survivor.

## MISS ELIZABETH R. SIMMONS

**She Was Native of Concord, Was Educated at Frank Sanborn's School, and Had Taught Latin at Several Private Schools.**

Miss Elizabeth Ripley Simmons, who had long made her home in Cambridge, died this morning at the Charlesgate Hospital. She was seventy-six years of age and was the daughter of the late Rev. George F. Simmons, who was a prominent Unitarian divine of his time. Her mother was Mary Emerson (Ripley) Simmons, and her grandfather on this side was Rev. Samuel Ripley of Concord who owned the Old Manse, intimately identified with the literary celebrities of that time. Miss Simmons was educated at Frank Sanborn's school, and had taught at several of the prominent

private schools, notably Miss Howard's in Springfield, and Miss Ireland's in Boston, at both of which she had specialized in Latin. Up to a few years ago, when ill health had compelled a curtailment of her activities, she had been a regular attendant at the First Parish Church, Cambridge. Her nearest survivor, is a brother, Edward Simmons, a prominent artist of New York city; and two nephews, George Simmons of Philadelphia and William Simmons of New York.

## MOURN HENRY H. EDES

### Funeral Services for Business Man and Historian Are Held at First Church

Funeral services for Henry Herbert Edes of Cambridge, for many years manager of the Conveyancers Title Insurance Company, and widely known for his interest in historical and literary subjects, were held this noon in the First Church in Boston, in the presence of a large number of men and women prominent in the business, professional and intellectual life of the city. Among the organizations which were officially represented were the American Antiquarian Society of Worcester, American Academy of Arts and Sciences, Massachusetts Historical Society, Colonial Society of Massachusetts, Essex Institute of Salem, New England Historic Genealogical Society, the Club of Odd Volumes, the Bostonian Society, and the Unitarian Historical Society.

The service was conducted by Rev. Charles E. Park, D. D., minister of the church, who pronounced an eloquent tribute to the character and accomplishments of Mr. Edes. John P. Marshall, organist, played Chopin's "Funeral March," "Cujus Animam," and the "Andante" from Beethoven's "Fifth Symphony" for a prelude. During the service the congregation sang "While Thee I Seek" and "How Happy Is He Born and Taught," and at the conclusion of the service the church choir chanted the "Nunc Dimittis." The postlude was Handel's "Large."

South Georgia, the first Antarctic land ever discovered, has now come into prominence through the death of the great British explorer, Sir Ernest Shackleton, and is associated with some of the most dramatic incidents of his career.

South Georgia is a typical example of the mountainous islands which encircle the Antarctic continent, a region of great scenic beauty, and supports a varied and interesting aggregation of animal life in the form of sea birds and marine mammals. The island has also become the world's greatest center of whaling. Doctor Murphy, who made an expedition to South Georgia in an American whaling brig, will tell something of its history and of the ways of sea elephants and other extraordinary creatures which make their home there.
